REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest an I.S. machine as claimed having a mold support mechanism as claimed with the cooperating elements of a shaft as claimed, an insert carrier as claimed and reservoir means included on the top surface of rail means as well as associated lubrication conduit means as claimed. These elements, taken alone, were common parts of similar mechanisms, but it would not have been obvious to combine them as they are claimed.
